

IN CATARACT AND REFRACTIVE SURGERY

20/20 Unhappy Patients Can Be Puzzling

Hyperosmolarity may be the missing piece

Did you know that hyperosmolarity...

-  ...can create light scatter equivalent to a grade 2-3 cataract?¹
-  ...can result in >1.0D refractive miss in 1 out of 10 patients?²
-  ...can create 7x the number of dissatisfied patients following cataract surgery?²

Incorporate tear osmolarity testing into your practice today!
